

INFORMATION SYSTEMS DEPARTMENT  
CITY OF MANCHESTER, NEW HAMPSHIRE

ADDENDUM NO. 3

February 8, 2005

SEALED PROPOSAL IS-0602

FOR

**Underground and Aerial Fiber Optic Cable Projects**

DATED

January 20, 2005

The attention of Bidders submitting proposals is called to the following addendum to the Sealed Proposal. The revisions set forth herein, whether of omission, addition or substitution are to be included in and form a part of the Proposal submitted.

Diane S. Prew  
Director, Information Services

**RUN #1**

1. *What manhole feeds Station 6?*  
Manhole at the corner of Cartier West Back
2. *Can Dubuque East Back Street be used in lieu of Rimmon Street?*  
Yes
3. *Can contractor move Fire Alarm cable?*  
No
4. *Can contractor lash to fiber on West and Parker Streets?*  
No
5. *What is the splice at Walker and South Main?*  
Aerial
6. *Is it possible to rise at Varney and South Main in lieu of Goffe and South Main Street?*

Possible, but not preferred

## **RUN #2**

1. *Can the contractor feed into Rines Center aerial or underground?*  
No preference
2. Currently the count of strands existing on this run are 18 active strands, which could possibly be used as a pull rope for the new fiber. This would mean the new 48 strands plus the replacement of the 18 existing would total at least 66 strands terminated. (The current 18 and 48 new)

## **RUN #3**

1. *Can we overlash fiber on Chestnut Street?*  
Yes

## **RUN #5**

1. *Get duct plate feed for Station 5?*  
See attached drawing
2. *Can any portion be aerial?*  
Yes, if underground is not possible

## **RUN #6**

1. *Can contractor use existing Fire Alarm duct under Airport flight path?*  
Yes
2. *Can contractor overlash to an anhydrex cable?*  
No

## **RUN #7**

1. *Alternate run?*  
Yes
2. *Can we overlash to Station 10 existing feed?*  
Yes
